

Coroplast® CORO-GUARD®

Coroplast CORO-GUARD is a conductive polypropylene corrugated sheet. CORO-GUARD sheeting is specifically made for the packaging and transportation of sensitive electronic components that need to be protected from electrostatic discharge (ESD).

Features & Benefits

- Lightweight
- Reusable
- Moisture proof
- Chemical resistant
- Strong and durable
- Easy to fabricate
- Thickness: 3 mm to 6 mm
- Color: Black
- Surface resistivity: 10-3 to 10-5 ohms/square

Applications

Designed for the packaging and transporting of electronic components.

CORO-GUARD sheeting is produced to meet the guidelines of the Electronics Industries Association (EIA), standard IS-5- A, the criteria for MIL-P-83668 (USAF) for physical properties of corrugated plastic sheet, and the standard DOD-HDBK-263 for material conductivity and decay time.
