

# Coroplast<sup>®</sup> Print

Coroplast<sup>®</sup> is the trusted name for corrugated polypropylene sheets.

Coroplast Print was developed to provide an ideal solution for those looking for a lightweight, economical substrate for tough digital and screen print applications.

## Features & Benefits

- Lightweight
- Corona treated
- Standard stocked sizes and colors
- Easy to cut, route, die-cut and finish
- Low minimums on custom sizes
- 100% recyclable

## Applications

- Point-of-purchase displays
- Trade shows and exhibits
- Construction signage
- Real estate and political signs
- Grocery merchandisers
- Transit advertising
- Convenience store promotions

Grocery merchandisers

Lawn signs

Trade shows & exhibits

Store displays

## Specifications

### Dyne Level

- 46 (minimum)

### Width

#### Standard Sheet

- 2mm to 12mm:  $\pm 1/8''$

#### Square Cut Sheet

- 2mm to 12mm:  $\pm 1/8''$

### Squareness

*(difference between diagonals)*

#### Length of Standard Sheet

- $< 60''$ :  $1/4''$
- $\geq 60''$ :  $5/8''$

#### Length of Square Cut Sheet

- $< 60''$ :  $1/8''$
- 60" to 120":  $1/4''$
- $> 120''$ : N/A

### Thickness

- $\pm 5\%$

### Length

#### Standard Sheet

- $< 36''$ :  $0''$  to  $+3/8''$
- 36" to 60":  $0''$  to  $+1/2''$
- 60" to  $< 97''$ :  $0''$  to  $+1''$

#### Square Cut Sheet

- All:  $0''$  to  $+1/8''$

### Warp

*(highest point of the sheet when placed on a flat surface)*

#### Length of Coroplast is $< 60''$

- If the Width is  $< 48''$ , the Tolerance is  $< 1/4''$
- If the Width is  $\geq 48''$ , the Tolerance is  $< 3/8''$

#### Length of Coroplast is $\geq 60''$

- If the Width is  $< 48''$ , the Tolerance is  $< 3/8''$
- If the Width is  $\geq 48''$ , the Tolerance is  $< 1/2''$

### Straightness

- If the Length is  $< 97''$ , the Tolerance is  $< 1/8''$
- If the Length is  $> 97''$ , the Tolerance is  $< 3/16''$

---

## Product Description

Corrugated Plastic - Coroplast is a lightweight, durable sheet consisting of three parts. The outside facings are manufactured to provide a highly printable graphic surface, while the inside core is produced with specifically arranged flutes to provide maximum strength with minimum weight. This provides a cost efficient, high quality board for your graphic needs.

## What is Square Cut?

Coroplast offers a secondary process where the sheets are trimmed to a tighter tolerance. This is commonly referred to as Square Cut in the market. An example of a Square Cut tolerance would be  $-0, +1/8''$  on the length and width for 4mm 24" x 18" sheets when ordered as Square Cut.
